INSTALLATION

Install the stand as described below, or if you want to mount it to a wall, please contact a professional installer. Please ensure the monitor is not plugged into the wall socket and furthermore we recommend to get another person to assist in the following task.

Attaching the stand

Step 1

Insert the Next of Stand into the Base of Stand, 2 x Screws (included) are to be screwed and fastened tightly. Once both screws installed, your stand will now be complete.

Step 2

Gently lay the monitor on its front screen on a surface with a blanket to prevent scratches. Then install the top of the stand (the neck) into the back of the monitor and fasten the stand into the back of the monitor with 2 x Screws (included) as shown below.

INSTALLATION (CONT.)

Wall OR Monitor Arm Mounting Instructions

Please ensure the Monitor is not plugged into the wall socket and furthermore we recommend to get another person to assist in the following task.

- We recommend you use a professional installer as we assume no liability for any eventual damage to the product or injury to yourself if you mount the Monitor on your own.

HDR

To activate HDR, your PC must turn on HDR from windows settings.

To do this:

Windows > Settings > Display

- Select ON for “USE HDR” as shown below. This is the only way to set HDR for your monitor and your games to detect it.

120Hz to 240Hz Refresh Rate

The refresh rate is entirely dependant on your PC build. Your PC must be able to output in over 120 FPS (frames per second) to 240 FPS, to experience the full effect of your 240Hz Blaupunkt Gaming Monitor.

HOW TO ENABLE 120HZ OR MORE

1. You must use a **DISPLAY PORT** cable. HDMI is not capable of more than 120Hz.
2. On your Windows PC - go to below menu.
Settings >
Display >
Advanced Display >
Choose a Refresh Rate. By clicking the refresh rate box below -
you will be able to adjust from 60Hz to 120Hz, 144Hz and 240Hz.
